

2018 Helia 44 Catamaran “Misek”

Boat Description:

Three cabins and three heads. The Captain will be using one cabin and one head so that leaves two very spacious cabins for the guests. In addition, there is a drop down berth in the salon that can easily sleep a single occupant.

This boat has full air conditioning

Generator power is available for AC while on the mooring or at anchor. It also has a 1000 watt solar panel to reduce fuel consumption

A 32" TV is available, and a Bose bluetooth sound system will keep everyone entertained.

This boat has a very large refrigerator, separate freezer, full galley including range and microwave/convection oven. A portable ice maker and outdoor grill makes the back deck the place to be.

198 gallons of water provide adequate water to showers etc. There is a FW washdown on the swim step

Dinghy and outboard is available to transport guests into port or that remote beach! Two standup paddle boards are available for your use.

Full Garmin electronics package assists the Captain with navigation. This boat carries 125 gallons of fuel and is powered by two 50hp Volvo engines.

And of course, MISEK sails extremally well. Guests are encouraged to assist in handling the boat and learning the fine points of sailing with Captain Tex! Or just relax on the spacious front deck or aft deck salon.

Captain Tex is a highly experienced mariner. He possesses a 100 ton US Coast Guard license. Very experienced with 15,000 miles of offshore operation as a Captain. He has crossed the Atlantic several times and traveled everywhere you can think of on the east coast including the Virgin Islands. He is a mechanical engineer who takes great pride in having a fully functional craft for you to enjoy. He is a great source of information and will add immensely to your enjoyment of the trip.

So relax and enjoy your charter!
